PRESIDENT FRANK B. BRANCH

In 1936, after a successful teaching and coaching career at Pace, Mississippi, there came to the faculty of Holmes Junior College a young man imbued with enthusiasm for his work and with a genuine love for and a rare understanding of young people, their interests, and their problems. This young man little knew that he was entering into a career which was, with the exception of two years when he was superintendent of schools at Ackerman, to be a continuous, varied, and challenging one in which he would spend the remainder of his working life.

That first year Frank B. Branch was a teacher of college history, assistant coach in football, girls' basketball coach, track coach, head of boys' dormitory, and student contact man. Never reluctant to accept responsibility, he served in many capacities his first seventeen years here: teacher of college history for sixteen years; student contact man for sixteen years, assistant football coach for eight years; head football coach for three years (one of his teams played in the first junior college bowl games in the United States); athletic director; boys' and girls' basketball coach for fourteen years (winning eighty-two percent of his games and state championships with both boys and girls); track coach; baseball coach, dean of men and high school principal.

Mr. Branch served under three presidents and was privileged to attend many meetings when the junior colleges in Mississippi were young. He early learned the intricacies of their struggle for existence and survival and of their great needs and potential.

It was with a varied background of experiences as a successful administrator, a diligent instructor, and an outstanding coach that Mr. Branch became President of Holmes Junior College in December, 1955. His purpose, as is evidenced by his accomplishments, has been to provide for the young people of our area the best educational opportunities, the finest faculty, and the best physical plant possible.

In 1955, only Holmes and Carroll Counties supported the college financially. Mr. Branch began with a night and day effort to persuade neighboring counties to join them in support. In eight years Attala, Montgomery, Grenada, Choctaw, Madison, Webster, and Yazoo Counties, in order, became a part of our district, all supporting the college financially. In gaining support and in the building program, great credit must be given to the fore-sight, wisdom and backing of our Boards of Trustees, our Boards of Supervisors, and state Senators and Representatives from our district. Now Holmes is on a sound financial basis and is considered as one of the outstanding junior colleges in the state.

Since Mr. Branch has been president, 140 acres of land have been acquired for the college. The Administration Building and Grenada, Webster, Madison, and Choctaw Halls have been completely renovated and refurnished. The old student center has been converted into the Social Science Building, and the first floor of the old science building into a recreational center. A new baseball and practice football field have been built, and the stadium and football field have been renovated. New buildings include McMorrough Library, Carroll Cafeteria, Motel Dormitory, Lorange Center, Yazoo Hall, Montgomery Fine Arts Building, the Vocational-Technical Center, the Business Building, the Science-Mathematics Building, Attala Hall, Frank Branch Coliseum, and twenty-six faculty homes and apartments. In 1972 a new deep well was drilled to back up the Phillips well drilled in 1930. Under construction at present are a library, an addition to the Vocational-Technical Center, a field house, warehouses and a garage.

In addition to fulfilling faithfully his duties as our President, Mr. Branch has served as President of the Mississippi Association of Junior Colleges for two years; Vice-President and President of the Mississippi Association of Colleges and Universities; member of Mississippi Junior College Commission for three years; Member of Legislative Committee for Mississippi Junior Colleges for ten years; member of Lay Study Committee which recommended to the Mississippi Legislature the division of Mississippi into junior college districts; Vice-President and President of Goodman Lions' Club; Vice-President and President of Goodman Community Club; and deacon in Main Street Baptist Church of Goodman since 1966.

A civic-minded, progressive school man, a man of enthusiasm, vision, integrity, and dedication, Mr. Branch has earned the respect and gratitude of those students whose lives he has touched. We appreciate what you have labored so long to provide for us, Mr. Branch. We are proud of you and Holmes Junior College. We hope that we can make you proud of us.

IN MEMORIAM

MR. G. H. McMORROUGH

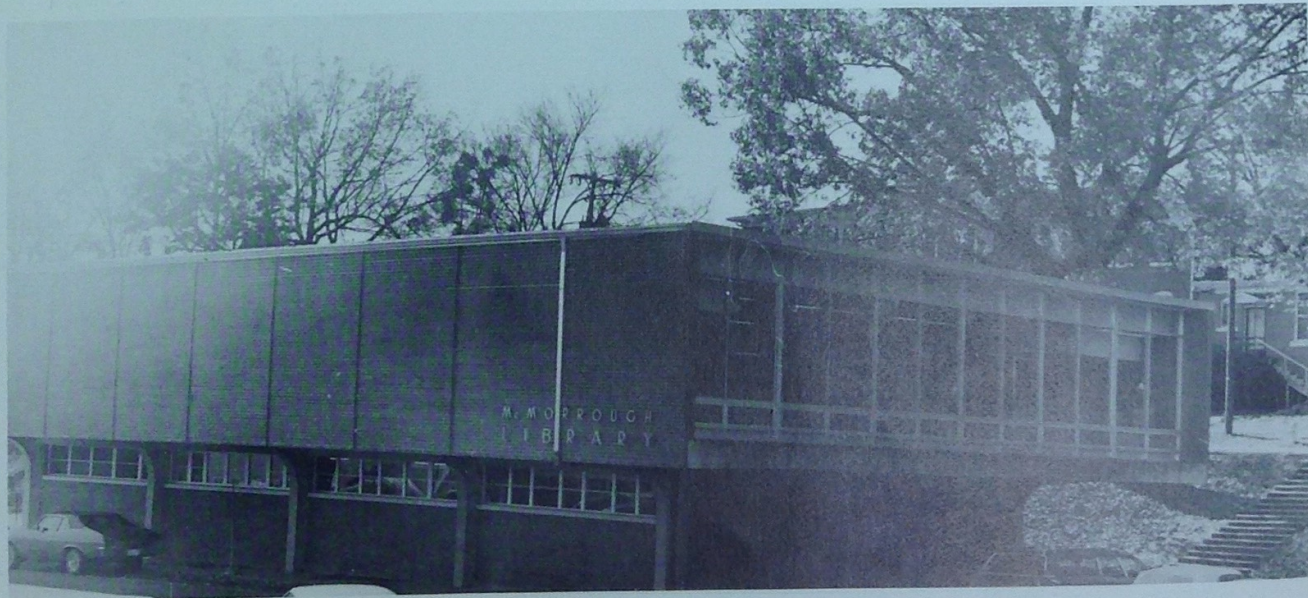

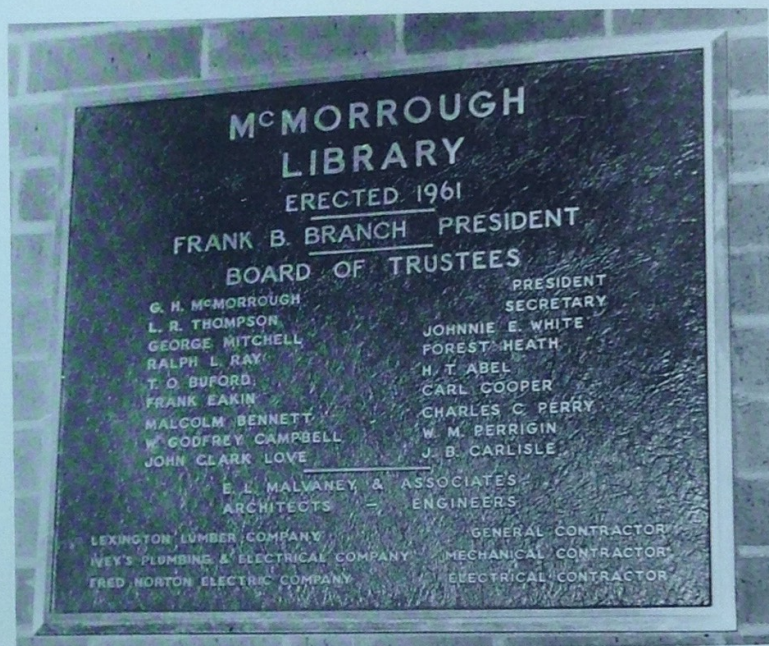

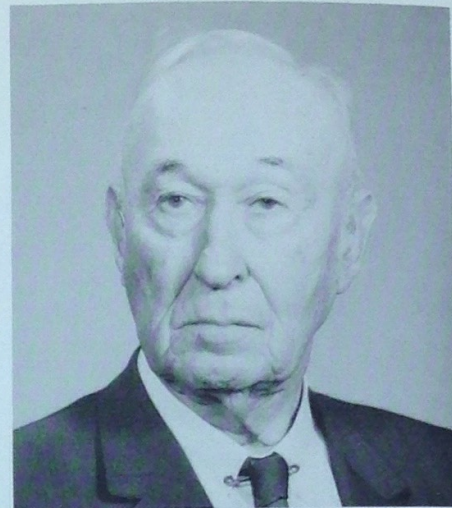

August 25, 1875 - November 22, 1974

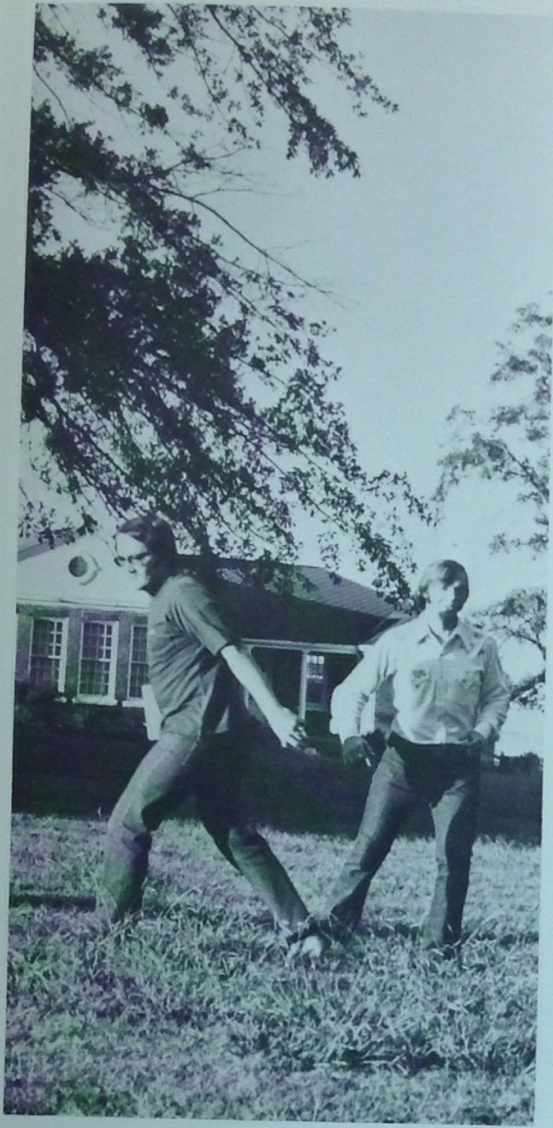

Born and reared in Holmes County, Mr. McMorrough spent his entire lifetime here. An eminent lawyer, a banker, and an interested citizen, he worked diligently for improvements in the county and in the state. In his ninety-nine years, he helped to bring about many changes for the advancement of this area.

One of his prime interests was the development and growth of Holmes Junior College. For fifty-eight years, first as attorney for the Board of Trustees and then from 1938 until 1971 as President of the Board, Mr. McMorrough proved himself a man of wisdom, foresight, and unusual dedication to the progress of Holmes Junior College. So faithful was he that he missed only four monthly meetings of the board during his years as president of that body, and these absences were caused by illness.

In 1961, the Board of Trustees, because of their admiration and respect for Mr. McMorrough as a man and because of his dedicated unselfish service to Holmes Junior College, named the library in his honor.

Our College has lost one of its greatest friends.

WHO'S WHO IN AMERICAN JUNIOR COLLEGES

Chosen by vote of the faculty, these fourteen students will appear in the 1974-1975 edition of Who's Who in American Junior Colleges. Emphasis on the selection is on scholastic achievement. Other factors in the determination are participation in campus activities, qualities of leadership and integrity, and contribution to the ideals and objectives of the college.

For whom is MP&L Helping Build
Mississippi Communities?

FOR THEM.

MP&L's Community Development work extends to young Mississippians. Working with Boy Scouts and 4-H Clubs the Company sponsors the Helping Build Mississippi Communities projects, which include conservation and beautification efforts, traffic safety, and "Good Samaritanism" toward the elderly. This work with young citizens gives added meaning and a long-range approach to MPL's goal of "Helping Build Mississippi."

IN CLOSING

EDITOR'S REMARKS

I hope you enjoy this book as much as I have enjoyed editing it. This edition would not have been possible without a hard working staff and most of all without our dedicated advisor, Miss Christine Carithers.

I would like to express my thanks and appreciation to the student body, faculty, and administration for their cooperation in making our task an easier one.

Surely our lives have been enriched from being a part of the growth of Holmes Junior College, and each time we look at this book, may we find some type of special memory.

It was once said, "Keep a daily record of only the happy things and before you know it, you will have a book full of beautiful memories." That is just what we have tried to achieve and I hope you think we have succeeded.
